- Easy & seamless phone system implementation
- Call center module and reporting tool available upon request
- Remote and On-Site assistance only a call away

Private Branch Exchange (PBX) Hardware

MILO & MILO+

Barely larger than the phones themselves, MILO is our entry-level PBX for up to 25 Users. Operating at a whisper's volume while maintaining a small footprint, MILO can fit anywhere in your small business' office.

MILO+ packs a shockingly powerful punch while retaining the same size and power consumption as the original, supporting up to 100 users and dispatching up to 55 concurrent calls. Increase your calling ability and customizability, not how much room it takes.

200R & 350R

The cutting-edge 200R is equipped with all the abilities you need for any type of office environment, supporting up to 200 Users and 100 concurrent calls.

Providing an even more robust assortment of features and ease of scalability while being amazingly quiet at its duties, the 200R is armed and ready to be the most flexible PBX for any kind of environment.

Need even more power than the 200R?

The 350R supports up to 350 Users and 175 concurrent calls. If you need an enterprise solution for your large business, the 350R has your office covered.

Need a Custom VoIP Solution?

Our preconfigured PBX models are amazing at what they do, but they are not the only options Rhynotel offers. For more than 350 users, we can work together with your office to build a custom-tailored phone and PBX solution that exceeds your specific needs. From small offices to large, multi-locational operations, Rhynotel is the answer you need for a powerful, reliable and cost-effective VoIP system.
